

**IOI OLEOCHEMICAL**  
**IOI OLEOCHEMICAL GROUP OF COMPANIES**

**ENERGY POLICY**

As part of Sustainability Policy, IOI Oleochemical Group of companies acknowledges the global importance and inherent responsibilities of efficient use and conservation of energy across our manufacturing facilities in which we have management control and supply chain to safeguard the well-being of our planet and future generations.

In fulfilling our commitment, we shall

1. Comply with energy-related law and legislation applicable in the countries in which we operate;
2. Map, measure and monitor energy footprints to ensure implementation is sustainable against long-term targets across our operations;
3. Report and communicate our energy performance and initiatives publicly on a yearly basis;
4. Strive to develop and implement measures for efficient energy management at our installation;
5. Support the harvesting and using green energy;
6. Ensure availability of information, training and necessary resources to achieve energy performance indicators and targets.
7. Encourage our selected suppliers to assess their energy-related indicators and support our responsible sourcing guideline;
8. Periodically review the adequacy and effectiveness of our energy policy and targets.

This policy will be communicated to all employees and person working within the organization.
